

MICHAEL NORMAN

Republican for House District 38: A Public Servant We Can Trust

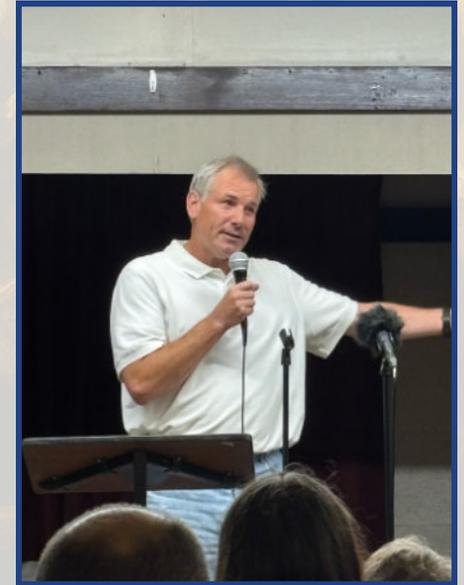

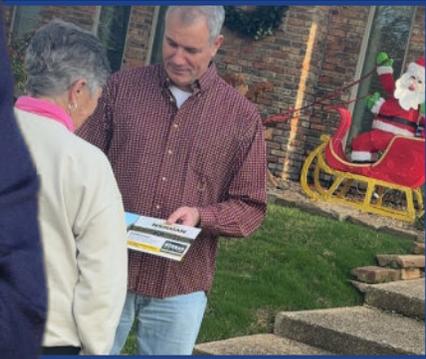

From the Kansas state line in the north to Guthrie in the south, from Enid in the west to Newkirk in the east—and everywhere in between—Michael Norman has traveled thousands of miles visiting with hundreds of hard-working Oklahoma taxpayers where it matters most: where they live.

He isn't content to simply speak at events. He hasn't outsourced door-to-door visits to paid "door knockers," and he hasn't hired a high-powered Oklahoma City consultant to feed him poll-tested talking points.

Instead, Michael Norman is asking for your support the right way—one-on-one, in person, face to face.

And because **he refuses to take lobbyist money**, his values will remain intact. He isn't beholden to special interests, and he won't betray our principles as so many politicians do—once the big checks start rolling in.

This is how public service should be done. This is the solution to what ails our government.

Protect Families, Limit Government, Prioritize Taxpayer Relief

NORMANFOROKHOUSE.COM

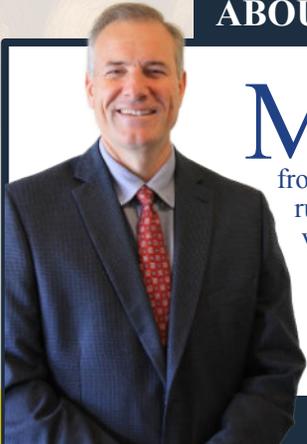

Based on hundreds of one-on-one conversations across House District 38, Michael Norman isn't guessing at what voters care about—he's listening. These personal visits on so many front porches have shaped his understanding of the values, concerns, and priorities of families, landowners, small business owners, and farmers throughout the district.

That's why Michael Norman has published a comprehensive platform online at NormanForOKHouse.com.

It is not a vague consultant-built template designed to sound good without saying much. It is not political theater. It's a platform built from listening by someone who shows up, asks questions, and takes the answers seriously.

This is the same people-based leadership Norman will provide as our next State Representative.

ABOUT MICHAEL NORMAN

Michael Norman is a man of faith, husband, father, doctor, author, former middle school teacher and small government conservative who moved his family away from the big city, and to House District 38 because of its strong rural values, faith, and sense of community. He believes these values are under attack like never before and must be defended. *"I believe the greatest threat to our life, liberty and property is big government. I am running to limit government and restore freedom for our families, especially the next generation."*
