

Meet Michael Norman...

Michael, his wife Laura and their family, live in rural Logan County just south of Crescent. After living much of their lives in Dallas, they arrived in Oklahoma after seeking a conservative rural lifestyle and a Christian school for their son, that catered to unique learning differences and would not force-feed woke ideology, liberal indoctrination and tyrannical medical mandates onto their students. Since making Logan County home, Michael has owned and operated his chiropractic practice in Guthrie, where he continues his nearly three decades of work, advocating for healthy communities and helping entire families achieve optimal health and enjoy a greater quality of life. In addition to his practice, he teaches middle school and believes in a traditional education that's free from the liberal woke indoctrination that's permeated far too many classrooms in the past few years. Michael and his family attend St. Mary Catholic Church in Guthrie.

As a husband, father, doctor and teacher, he has grown increasingly troubled with the future direction of our community and the preservation of our conservative way of life. Attacks from the left, along with a complacent RINO response have placed our community at risk on multiple fronts. Michael is particularly concerned with the astronomical rise in our property taxes, the destructive proliferation of the green energy wind farm invasion, and the runaway growth of big government. Even worse, he witnesses lifelong Oklahoma elected officials permitting this destruction, betraying their constituents and communities because of the free flow of corporate lobbyist money filling their coffers every year.

As our communities face serious threats and challenges, we cannot afford to have House District 38 sold out to corporate special interests. Michael asks for your support as your next State Representative for HD 38. **He has boldly pledged to reject all special interest, corporate, and lobbyist money because he believes the residents of HD 38 deserve this.**

Michael is a true conservative fighter and he will tirelessly go to the Capitol and proudly fight for YOU. If elected on June 16th, Michael Norman will deliver House District 38 back into YOUR hands, free from any and all lobbyist influence. The conservative residents of HD 38 deserve nothing less.

Why am I running?

"I believe the greatest threat to our life, liberty and property is big government. I am running to limit government and restore freedom for our families, especially the next generation. When government acts in a way that hurts our families, we have a choice to make. I am stepping up to fight this threat by serving the people, not the powerful."

“Small Government. Taxpayer Relief.”

HD 38 Constituent-Driven Platform

After criss-crossing the approximately 3000 square miles of House District 38 and having 100's of conversations on the front porches of constituents, this platform took shape and came into existence. The following agenda resulted from HD38 voters, not high-priced political consultants and their generic campaign talking points and focus group tested platitudes. As such, this platform differs greatly from my Republican opponents, who seek to go to the Capitol and largely due the bidding of their corporate donors and fuel the growth of government.

1. Reject ALL Special Interest, Corporate, and Lobbyist Money.

“Typical politician candidates are bought and paid for, before they even walk in the front door of the Capitol. If change is to come, bold, principled leadership must step up and take our communities back from outside influence. Let's live in a district where 'we the people' have the final voice and not special interests, corporations and lobbyists.”

2. Stop Big Government's Theft of Taxpayers; Oklahoma Families Need Relief Now!

“We do not have a revenue problem in this state...we have a spending problem!”

- Protect families and help them keep more of what they earn.
- Big government is a threat to our God-given liberties. To secure and protect our God-given liberties we must rein in and shrink government.
- Hard-working Oklahoma taxpayers must have legislators who champion and fight on their behalf.

3. Save Our Homes! Abolish the Property Tax

“I believe we are fast approaching a housing and economic security crisis.”

- Local public debt is spiraling out of control and has accumulated by using our properties and home equity as collateral, posing a direct threat to hard-working Oklahomans in the very near future.

4. End the Green Energy Scam

“I have yet to meet any HD38 resident who experienced lower utility bills as a result of Oklahoma’s destructive, taxpayer-subsidized green energy agenda.”

- We can no longer be open for companies that are going to come into our state, swindle our residents, hurt our land and leave it in a worse way than when they found it.
- Wind, Solar, CO2 Pipelines and energy transmission towers are not for the public good and highly destructive to our conservative, rural way of life.
- We must fight vigorously for private property rights, and I will always side with Oklahomans against government eminent-domain for their unconstitutional projects. I will help counties who choose to fight the Utilities Board. The Utilities Board does not have the final say, our counties do!

5. Stop Playing Government Favorites! Immediately End Corporate Welfare

“Stop forcing hard-working Oklahoma taxpayers to become de-facto venture capitalists in big government’s crony-capitalism and welfare schemes.”

6. Criminalize Foreign Ownership of Oklahoma Farmland and Support Oklahoma Farmers

- 80% of foreign ownership is linked to China’s CCP which is also linked to the drug cartels. Land forfeiture of hostile foreign actors who seek to do us harm (particularly around military bases) is appropriate, and I support the returning of this land to hard working Oklahomans for the benefit of agricultural operations and increased crop yield for our state and our nation.
- I will support Oklahoma farmers by cutting red tape and regulations, and securing long term future water for our communities. I give my unwavering support for food freedom and local farms. I will oppose or fight to nullify any corporate shield of immunity and stand with the families of Oklahoma farmers who have been harmed by their products.

7. Save Rural Oklahoma; Maximize Resources for Public Safety and Transportation

“Oklahoma City has forgotten our rural communities and, because of smaller population size, the money never seems to arrive.”

- Give power back to our County Commissioners, not Oklahoma City. We should give money directly to our counties, cutting out the agencies in the middle who siphon off taxpayer funds.
- Provide long overdue resources and support for our rural police and fire departments and our county jails, and undertake an ambitious improvement of our county roads and bridges.

8. Defend and Protect the Sanctity of Life from Conception to Natural Death

“I am an abortion abolitionist, not a regulator. Every child deserves protection from the moment of conception-no exceptions. We need to recognize the personhood of the unborn in our laws and constitution. I will do all in my power to help Oklahoma become the first abortion-free state in the U.S.”

- Defend and advocate for families and children with special needs.

9. Defend and Expand Our Right to Bear Arms in the 2nd Amendment

“Our right to bear arms and our ability to defend our families, our homes and our Country will always be vigorously defended. Our 2nd Amendment protects all of our other rights and all attempts to infringe upon this right will be fought.”

- Not only defense of our 2nd Amendment, but I will actively work for the expansion of these protections for Oklahomans. The good guys must be increasingly backed by the rule of law!

10. Restore Transparency and Accountability to Our State Capitol

“During my campaigning, far too many HD38 voters had to ask me who our current representative was. This is unacceptable. If elected, I am committed to public town halls, annual door-to-door visits, weekly reports/communications and an open-door policy for my office.”

- Audit every state agency. “Doge” the waste, fraud and abuse of taxpayer money and rebate savings directly back to hard-working Oklahomans.

11. Stand for Conservative Christian Values and a Biblical Worldview

“Our rights come from God, not the government. We need strong leadership that will protect and defend our God-given freedoms and the values and principles found in the Oklahoma Republican Party platform”

- Protect our children from woke ideology in all venues and push it out of our communities.
- Work to eradicate the illegal marijuana operations destroying the soul of our communities and the future of our youth. Stop the proliferation of marijuana dispensaries “on every corner.”
- Strongly defend individual freedoms, Constitutional values, and basic American rights against the Globalism-captured bureaucracy. I will fight Big Government’s surveillance of citizens and any digital currency initiatives.

- I will defend our medical freedoms and parental rights and oppose all tyrannical mandates and the coercion of Big Pharma. If elected, HD38 will have NO Big Pharma lobbyist influence. Will fight for the nullification of Big Pharma's shield of immunity stand with Oklahomans who have been harmed by their products. Will resist any attempts to revive the WHO Pandemic Agreement. I will always oppose and reject any future mask, vaccine, or health procedure mandate (whether public or private) and fight against any medical discrimination.
